

Honolulu demands a fair business administration. That's the kind of administration Honolulu will have when I am mayor.

J. C. COHEN.

Velvet
ICE CREAM

The mere word "Ice Cream" calls to your mind something that is very good but something that you don't get often because you think it is a luxury.

Velvet Ice Cream
is a luxury to your taste but it is cheap when you consider its rich food properties.

HONOLULU DAIRYMEN'S ASSOCIATION

There Are Many Reasons Why--

WORK NOW WELL UNDER WAY ON BUILDINGS FOR MISSISSIPPI CENTENNIAL EXPOSITION

Rapid progress is being made on the work of constructing most of the permanent buildings of the Mississippi Centennial Exposition to open in Gulfport, Miss., Dec. 10, 1917, and close June 10, 1918.

Small armies of men are now actively at work on the following structures: Coliseum, Mississippi Building, Woman's, Boys' and Girls' Building, Efficiency Building, Arts and Crafts Building and Manufacturers Building. The Administration Building already is completed and occupied by the busy officials of the exposition.

These five buildings will face on an enormous court to be called the Italian Garden and which will be beautified by palm trees, grass plots, flower beds and shell driveways and paths. An electrical fountain, 85 feet high with an 80 foot basin, will be in the center of the court.

The main basin will have four fountains in it, each having seven sprays ascending with varying lights showing them. In the center of the fountain is a base or pedestal 23 feet high with four faces. On each face will be human figures probably representing the four seasons. On this pedestal will be a shaft or column 8 feet in diameter and 54 feet high. This will be topped by an immense glass electric globe 1-1/2 feet in diameter supported by four carvings. The shaft will be doric in design.

With the 28 fountain spraying water, which will be colored by changing electric lights, and the shaft with the immense electric globe, even if this will be at once the most spectacular feature of the grounds.

These buildings are to be completed by the middle of June and contractors will be penalized if they are not finished by that time.

The Coliseum will be at the north end of the court. The steel spans in this building are the longest of any structure in the South and there are only two or three other buildings in the United States where the spans are longer. The building will be entirely of concrete foundations, structural steel and hollow tile with concrete floor and tile roof. The building will be fireproof. Ninety-five tons of structural steel are being used in the structure and approximately 412 cubic yards of concrete. It will seat 5,000 people and the six steel truss spans supporting the roof are 133 feet.

The Mississippi Building will be of concrete foundation and hollow tile walls. The structure will be 300 feet long and 90 feet wide. In it will be housed the exhibits from all of the counties in Mississippi. This building, as well as the Coliseum, has been deeded to the State.

The Manufacturers Building is of concrete and cement stucco on metal lath and will be used for commercial exhibits.

The Woman's, Boys' and Girls' Building.

DANCING CLASSES

Learn the latest New York dances from MADAME LESTER, Honolulu's leading teacher: Tuesday evening, Club; Friday evening, Punahou Class; Saturday morning, Children's Class. Fancy and stage dancing, private lessons by appointment. Phone 1162, I. O. O. F. Hall. Res. 3675, The Romagosa.

Building, near the Coliseum, will be of similar construction and this will be the headquarters for various gatherings and exhibits of organizations composed of women, boys and girls.

The Arts and Crafts Building will be of the same construction as the Manufacturers Building, as will also the Efficiency Building.

The type of architecture is modern Spanish Mission and the color scheme on the buildings will be cream walls, red tile roofs with brown trimmings.

This scheme will harmonize beautifully with the blue of the waters of the Gulf of Mexico, on the beach of which the Exposition will be staged, and the green foliage of the trees and shrubbery, palms and general flora on the grounds.

There will be 1600 botanical specimens on the grounds, more than any in the history of large or small exhibitions in this country.

Many foreign exhibits are now en route to Gulfport in bond.

"Dixie Reef" is the name of the amusement street, and the largest and best attractions will be installed on that thoroughfare of light and laughter.

The monster U. S. government exhibit will be a big feature of Mississippi's "Birthday Party."

Work soon is to begin on the Automobile, Negro, Southern Food Products, Nursery, Agricultural and other structures, also on the Athletic Field and Stadium.

An Effective Laxative For Growing Children

Dr. Caldwell's Syrup Pepsin
Highly Recommended as
a Family Remedy

In children the slightest irregularity of the bowels has a tendency to disturb the entire digestive system, and unless promptly remedied invites serious illness. The experienced mother knows that by training her children to regularity in this respect, and when occasion arises administering a mild laxative, she will have little need for the doctor's services.

Mrs. Leo Weigand, 3251 Central Ave., N. S., Pittsburg, Pa., whose two boys, Frank and Joseph, are shown in the illustration, writes that she has found Dr. Caldwell's Syrup Pepsin a most effective laxative, not only for the children but also for herself, and that she will always keep it in the house to use when needed. Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts easily and naturally, without griping or other pain or discomfort. It is pleasant to the taste so that children like it, and is equally effective on the strongest constitution.

Dr. Caldwell's Syrup Pepsin can be

Frank Joe Weigand

obtained at any drug store for fifty cents, and should have a place in every home. It will save many times its cost in lessened doctor-bills and maintain the health of the entire family. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois, or by calling at Benson, Smith & Co., wholesale distributors, Honolulu.

ARMY IS AGAINST VICE AND DRINK

Before a gathering of more than four score members of the men's league of Central Union church, Brig. Gen. Frederick S. Strong, commander of the Hawaiian department, declared he and other officers of the army here are opposed to the saloon and the restricted district.

Gen. Strong asserted that Wahiawa is a blot on the landscape; that unless it is cleaned up he will issue orders forbidding his men to frequent it.

The general praised the work of the Y. M. C. A. and assured that body he would be behind any movement it cared to take up toward interesting men of the outlying posts in things other than the daily life of the camp.

P. A. McCarl, who has been in charge of Y. M. C. A. work along the border since the first troops were sent down there from the mainland, told in an interesting manner of the

system on which the association moved.

Rooms for reading and writing were provided and moving picture buildings were built with the result that most of the men spent their evenings near camp instead of going to the nearby towns.

James A. Rath, head worker at Palama Settlement, spoke briefly on the "abatement by injunction" bill which has passed the senate and is now in the house. He urged all his hearers to help get the bill through the latter body.

W. R. Farrington spoke on the same subject, declaring that cooperation is necessary to aid in the passage of the bill. He said he had outlined a scheme for a postcard campaign, whereby those favoring the bill would send in brief messages urging its passage. The cards were handed around to those present with the request that they be used as proposed.

Resolution, pledging the support of the Legislature to President Wilson in his effort "to protect American lives and American honor" were adopted unanimously by the Massachusetts Senate.
